

**AMENDED  
FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Rob West  
DOCKET NO.: 07-25971.001-R-1 through 07-25971.002-R-1  
PARCEL NO.: See Below

The parties of record before the Property Tax Appeal Board are Rob West, the appellant(s), by attorney Joanne Elliott, of Elliott & Associates, P.C. in Des Plaines; and the Cook County Board of Review.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

DOCKET NO	PARCEL NUMBER	LAND	IMPRVMT	TOTAL
07-25971.001-R-1	04-14-100-013-0000	26,136	184,422	\$210,558
07-25971.002-R-1	04-14-100-014-0000	13,068	0	\$13,068

Subject only to the State multiplier as applicable.

**ANALYSIS**

The subject property consists of a 21,780 square foot parcel of land improved with a nine-year old, two-story, frame and masonry, single-family dwelling. The improvement contains 8,782 square feet of living area, three full and two-half baths, air conditioning, two fireplaces, a full unfinished basement, and a four-car garage. The appellant argued unequal treatment in the assessment process as the basis of this appeal.

In support of the equity argument, the appellant submitted descriptions and assessment information as well as black and white photographs, on a total of four properties suggested as comparable. The properties are located within one-mile of the subject. The properties are improved with two-story, masonry or frame and masonry, single-family dwellings. The properties are 10 or 11 years in age. They range: in bathrooms from three full and three-half baths to five full and two-half baths; and in size from 8,318 to 9,235 square feet of living area; and in

improvement assessment from \$20.53 to \$20.85 per square foot of living area. The subject's improvement assessment is \$24.07 per square foot.

The properties also contain: air conditioning, one to three fireplaces, full finished or unfinished basements, and three or four-car garage areas. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on appeal" wherein the subject's improvement assessment of \$211,400 or \$24.07 per square foot of living area was disclosed. In support of the subject's assessment, the board of review presented descriptions and assessment information on two properties suggested as comparable. The properties are improved with two-story, frame and masonry, single-family dwellings. The properties are 10 and 12 in age; contain 6,181 and 8,619 square feet of living area in size; with four full and two-half baths and five full and two-half baths. The properties also include full finished basements with a formal recreation room, air conditioning, three fireplaces, and four-car garage areas. The properties have improvement assessments of \$23.99 and \$24.09 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal.

The appellant contends unequal treatment in the subject's improvement assessment as the basis of the appeal. Taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). After an analysis of the assessment data, the PTAB finds the appellant has met this burden.

The parties presented a total of six properties suggested as comparable to the subject. The PTAB finds the appellant's comparables #1, and #2, and the board of review's comparable #1 most similar to the subject in improvement size, design, and age. These comparables ranged in improvement assessments from \$20.53 to \$23.99 per square foot. The subject's improvement assessment at \$24.07 per square foot is above the range established by these comparables. Further, the board accorded diminished weight to the remaining properties due to a disparity in improvement size. Therefore, after considering adjustments and the differences in both parties' comparables when compared to the subject, the Board finds that the appellant has demonstrated that the subject is inequitably assessed. The Board finds that the subject's per square foot improvement assessment is not supported and a reduction in the improvement assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
